

Counties Power Climate Safety Project

- Safety is lead from the staff in the field
- Safety is supported by Management
- Counties Power is focused on Safety first approach
- Process to identify and focus attention on key issues

THINK - safe

WORK - safe

HOME - safe

Survey recommendations

- Workload and pace
- Fatigue management
- More equipment and trained staff
- Training and work procedures
- Housekeeping
- Better communication

Our Approach

- Sub-committee to lead the opportunity
- Working group from the coal face
- Support by management
- Focus on Safety
- Decided on the top five target areas.
- Communicate to all staff through weekly news letters and update board

Achievement to date

- New Health and Safety committee formed
- New Company staff fatigue policy
- Changes to Drug and alcohol policy
- Improved communication plan to staff
- New Equipment purchased. Larger Crane, New 4.5 ton forklift
- New yard signage, site map
