

# SHE ALERT

## Crushed Finger

Date of incident	6th June 2025		Directorate	Operations SEPD	
Region	Thames Valley	Location	Winnersh	Classification	MTI
What happened					
<p>Our contract partner was under sanction for test and had completed their cold phasing between two points. Whilst walking to their next point of work they lost their balance by the joint bay. As they fell, they put out their hand and grabbed the GRP handle. This caught their little finger between the handle and locking position.</p> <p>First aid was administered on site, and they then went to A&amp;E where they the wound was cleaned, and they were required to attend a follow up appointment. At the follow up appointment they received stitches to their finger and the remaining part of their fingernail was removed.</p> <p>While we investigate this incident please remember the following:</p> <ul style="list-style-type: none"> <li>• Ensure good housekeeping on site.</li> <li>• Use designated walkways at all times.</li> </ul>
