

SHE ALERT

RTC Class 1

Date of Incident	21 st July 2025		Directorate	SHEPD Operations	
Region	Caledonia	Location	Torphins A980	Classification	RTC Class 1
What happened ?					
<p>While travelling on the A980 towards Torphins, our colleague encountered a third-party vehicle that lost control while navigating a bend in the road. Observing the situation unfold, our colleague took immediate evasive action by steering their vehicle onto the embankment to avoid a collision.</p> <p>Despite these efforts the third-party vehicle collided with a wall, veering across the carriageway and striking our vehicle, coming to a stop at the roadside.</p> <p>Emergency services promptly attended the scene. Fortunately, no injuries were reported by either party. However, due to the extent of the damage, both vehicles required recovery from the site.</p> <p>Our colleague's quick thinking and defensive driving techniques significantly mitigated the severity of the incident, preventing what could have been a much more serious collision.</p>
