SHE ALERT
Slips, Trips and Falls

Date of incident	20/04/2026		Directorate	Services	
Region	Control GB	Location	SSE Perth, Link Building	Classification	Potential to be worse

What happened ?

A colleague tripped on the first step of the external stairs leading into the main reception area, put their hands out to break the fall, and sustained a fracture to their left wrist.

As we continue to investigate this incident, we would like to emphasise the following:

Choice Not Chance – Safety Golden Rules

This incident reinforces our *Choice Not Chance* approach and the importance of following our Safety Golden Rules.

One of our Golden Rules is that **everyone must hold the handrail when going up or down stairs and never uses a mobile phone while walking on stairways**.

Slips, trips and falls are one of the most common workplace accidents, and we can reduce the risk simply by consistently following this Golden Rule.
