# SAFETY ALERT!

20 August 2015  
Maximo REF No. 7289

## Drill Rig Pins Contractor resulting in Fractures

### WHAT HAPPENED?

**Location:** ROX-TWZ A Line Roxburgh Foundation Strengthening Project

**Incident:** Unloading of Drill Rig from Transporter

Further to the First Alert issued on 3<sup>rd</sup> May 2015, this Safety Alert details the Corrective Actions determined and implemented as the result of the investigation into the incident at Roxburgh where a Sub Contractor was injured whilst unloading a Drill Rig from a Transporter.

### CORRECTIVE ACTIONS

Communicating with the employer of the injured employee and providing assistance where required to ensure a full return to work (ongoing at this time)
--

Transporter modified with installation of full width hydraulic ramps (see photo below)
--

Safety Plan Improvement – from this point forward ensure full detail on mobilisation and de-mobilisation steps is included in scope of work
---

Transporter at time of incident

Modified Transporter Deck and Ramps
